 Yazd, Iran

 Novamner, 2000

 shirin-esmaily

 shirinesm

Computer Science student focused on AI automation and intelligent agent systems, with a foundation in Python and backend development. Interested in designing AI-powered workflows, integrating APIs and LLMs, and building practical automation solutions using tools. Continuously developing expertise in agentic AI, backend engineering, and scalable AI-driven applications.

EXPERIENCE

AI Agent Developer| Vibe coder

12/2025 – 09/2026

DASTYAR Ai Assistant Self Improvment

- project available on my GitHub profile

Back-end Internship,

06/2024 – 10/2024

ISATIS POOYA

- contact: <https://isatispooya.com/> 

Programming Instructor, VIANA Academy

09/2022 – 10/2023

- Instructor of Algorithm and Scratch Jr

- contact:<https://viana.academy/>

Front-end Internship, HPEC

07/2020 – 10/2021

- contact: info@hpec.ir

EDUCATION

Associate of Science (A.S.) in Computer Science, Yazd University

10/2019 – 09/2024

EXPERTISE

Python: Basics | OOP | Exceptions | Packaging, Scripting | Iterators & Generators, Decorators | Context Manager | Regex | api,json,XML | Python server & Http requests • **Django:** MVT | ORM (Models) |

Forms | Cookie & Session • **PostgreSQL:** ERD | SQL queries | Relationships • **git** •

HTTP| REST API| Webhooks • **LLM Fundamentals:** Basics • **Prompt Engineering:** Role Prompting, Structured output, JSON output, Role prompting • **Function Calling / Tool Calling** • **AI Agents** •

n8n • **Docker:** Basics • **AI Evaluation**

LANGUAGE

English (C1(Advanced), Professional working proficiency) • **German** (A2)
